Foreword:

In March 2025, the levels of attacks by the Israeli occupation forces and colonizers reached alarming levels, both in terms of their frequency and the nature of their targets, which aim to undermine the Palestinian presence throughout Palestinian territories. Compared to previous months, Palestinian citizens have increasingly found themselves targets of either official occupation measures or organized violence perpetrated by colonizers groups.

Consequently, Palestinians continue to pay a heavy price regarding their personal security, lives, and property. The Israeli occupying state seems intent on using Palestinian suffering as propaganda to advance its government's agenda, and it is inciting aggressive colonizers to act violently against those who remain steadfast in their land. In this relentless struggle, Palestinians are paying an extraordinary price, both psychologically and physically, as they strive to protect their rights, property, and existence.

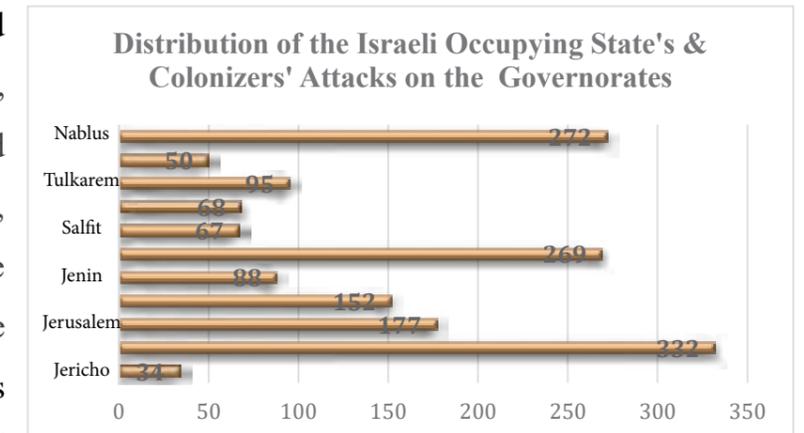

Mu'ayyad Shaa'ban,

Head of the Colonization & Wall Resistance Commission
(CWRC)

First: Violations of the Israeli Occupation State & Colonizers in the Occupied Palestinian Territories in March 2025:

During the reporting period, March 2025, the Colonization & Wall Resistance Commission (CWRC) monitored 1604 attacks. These attacks were carried out by the various bodies of the occupying state, including its colonial militia, against

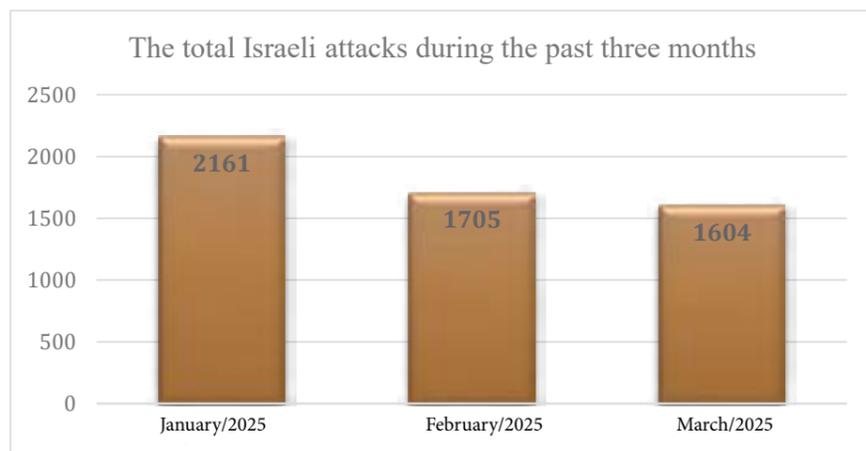

Palestinian citizens and their properties. Of these, 1349 attacks were carried out by the Israeli army, while 355 attacks were perpetrated by the colonizers. These attacks included assaults and

physical injuries, caused by live ammunition, gas, or terrorism. They also involved raids, vandalism, theft, property confiscation, land bulldozing, and uprooting trees. However, the majority of these attacks occurred in the governorate of Hebron which witnessed 332 attacks. This was followed by Nablus Governorate (272 attacks). Meanwhile, 269 attacks were recorded in Ramallah governorate. These governorates experienced intensive attacks, amounting to 55% of the total attacks. The other governorates faced a similarly difficult situation. The governorates of Bethlehem and Jerusalem experienced over one hundred attacks for each.

These attacks included 373 attacks on property and holy places, 77 attacks on lands and natural resources, and 1154 attacks on citizens.

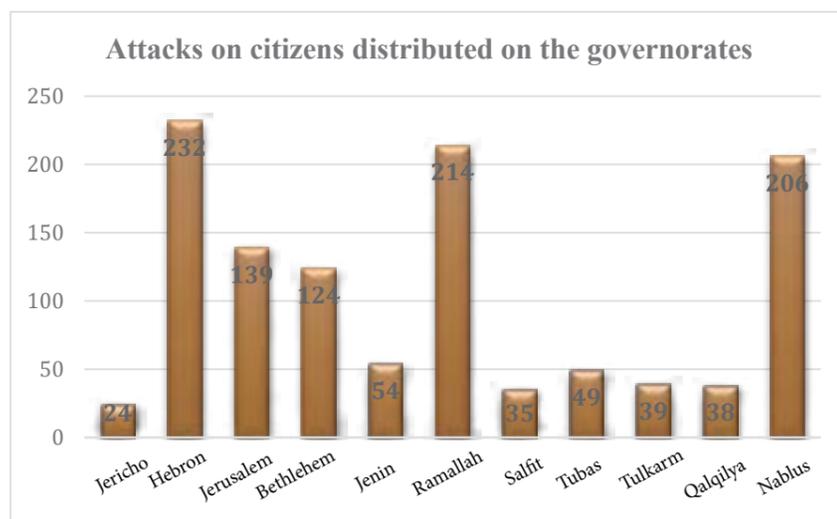

A comparison of the total Israeli violations during the past three months:

Attacks Perpetrated by Israeli Occupation State & Colonizers against Palestinian Citizens, their Properties and Holy Places.

Attacks on citizens:

During the reporting period, March 2025, the Colonization & Wall Resistance Commission (CWRC) documented 1154 attacks on citizens. Most of these attacks were

concentrated in Hebron Governorate which witnessed 232 attacks, followed by Nablus Governorate which witnessed 206 attacks. These attacks included shooting, arrest campaigns, shutting down checkpoints and imposing traffic restrictions on citizens.

Attacks on Lands & Natural Resources:

In March 2025, the Colonization & Wall Resistance Commission (CWRC) has documented 77 attacks on the Palestinian lands and natural resources. These attacks were concentrated in the governorates of Hebron and Nablus which were subjected to witness 21 attacks for each, followed by the governorates of Ramallah and Salfit where 15 were recorded in each of them.

These attacks affected hundreds of dunums of citizens' lands. During the reporting period, March 2025, there were 6 attempts by colonizers to establish colonial outposts in the governorates of Nablus, Tubas, Ramallah, and Jericho. Additionally, the Israeli occupation authorities and colonizers carried out 25 bulldozing lands' operations.

These operations were concentrated in Salfit Governorate, where 7 bulldozing lands'

operations took place, followed by Ramallah which was subjected to 5 bulldozing lands' operations. Meanwhile, 4 bulldozing lands' operations were recorded in each of Nablus and Hebron¹.

Attacks on Trees:

During the reporting period, March 2025, the Colonization & Wall Resistance Commission (CWRC) documented 46 attacks that targeted olive trees and caused the uprooting, poisoning and burning of 1354 trees among which there were 1324 olive trees. These attacks were concentrated in the governorate of Hebron where 15 attacks were recorded, followed by the governorate of Nablus which witnessed 12 attacks. Meanwhile, there were 9 attacks in ramallah governorate and 8 attacks in Salfit governorate.

Table (2) clarifies the number of the uprooted trees in several governorates

Governorate	Number of the uprooted trees
Hebron	120
Salfit	309
Nablus	925
Total	1354

Attacks on Palestinians' Properties:

In March 2025, the CWRC documented 373 Israeli attacks on Palestinian property. During this period, the occupying army and colonial militias carried out extensive campaigns to confiscate and steal citizens' property. The targeted properties included mobile homes (caravans), agricultural tractors, vehicles, home security cameras, livestock, money, and more.

¹ Table No. (3)

Furthermore, there were 188 incidents of property vandalism and 49 documented incidents of confiscations and thefts of properties during the reporting period. Specifically, Israeli forces confiscated 14 vehicles, 6 surveillance camera recordings, 5 bulldozers and trucks, 1 agricultural tractor, 6 cases of stealing money (gold jewelry, cash money), a case of confiscating files and papers, as well as plastic toys for children. Meanwhile, the colonizers were involved in the theft of: 112 goats, one donkey, nine camels, five horses, six instances of agricultural equipment confiscation, stealing a set of house keys. Noteworthy, these confiscations and thefts were concentrated in Hebron Governorate which witnessed 13 incidents, followed by Ramallah Governorate where 11 incidents of colonizers' confiscation were reported, and then Nablus Governorate, which recorded seven cases of confiscation and theft.

Colonizers' Attacks: According to what was monitored and documented by the Colonization and Wall Resistance Commission (CWRC) during the reporting period, March 2025, the colonizers carried out 255 organized attacks. These attacks varied between the occupation army's protection of the colonists in their storming of Palestinian cities and communities, breaking into Palestinian villages, confiscating citizens' property, drawing racist slogans on the walls, and bulldozing lands, as what happened in the villages of Qarawa Bani Hassan, Haris, Wadi Al-Matwi, Iskaka, Khallet Hassan, Khirbet Tana, Huwwara, Madama, Sinjil, Umm Safa, Deir Nizam, Umm Sidra in Masafer Yatta and other villages

The most prominent of these colonial attacks was storming the holy places; among which was the squares of Al-Aqsa Mosque in the occupied city of Jerusalem. During the reporting period, March 2025, 4784 Israeli colonizers, protected by the occupation army, carried out 28 raids into Al-Aqsa Mosque Squares. Besides, 2832 colonizers carried out provocative tours under what is called "tourism to the squares of Al-Aqsa Mosque". As for al Ibrahimi Mosque in Hebron, the Israeli attacks escalated during the holy month of Ramadan, as occupation authorities imposed restrictions on prayers at the mosque. These attacks reached its peak when these

authorities refused to allow worshippers access to the entire compound during Eid al-Fitr. The actions taken against al Ibrahimi Mosque represent a blatant and unprecedented attack, provoking the feelings of Muslims and showing a disregard for the sanctity of religious rituals.

Notably worth, most of these attacks were concentrated in Hebron Governorate which was subjected to 71 attacks, followed by Nablus Governorate where 42 attacks were recorded. Meanwhile, 31 attacks were documented in Ramallah Governorate

Examples on the Colonizers' Attacks carried out in March 2025:

On March 10, 2025, a group of colonizers established a new colonial outpost in Huwwara town, located south of Nablus. They set up tents and greenhouses on the summit of Mount Ras Zeid in Za'tara Basin. Reports indicated that the colonizers had bulldozed these lands for over a month prior to this date.

On March 11, 2025, a group of colonizers set fire to three vehicles in the village of Umm Safa, located northwest of Ramallah. In the early hours of the morning, a group of colonizers stormed in the western side of the village and attacked a garage belonging to Muhammad Yusef al-Sabti Sabah and his brother Raafat, setting it on fire, completely burning three vehicles.

On March 14, 2025, a group of colonizers, with the protection of the Israeli occupation forces, bulldozed dozens of dunams of land belonging to local citizens in “Wadi al-Matwi” area. This area connects the city of Salfit with the town of Bruqin to the west and is being targeted for a new colonial road leading to the outpost of al-Ras. About 40 ancient olive trees were uprooted and large areas

of lands, belonging to the citizens Nafez Ayoub, Riyadh and Zuhair Zuhd, were bulldozed. The Citizen “Riyad Zahd” said that colonizers uprooted about 20 ancient olive trees, between 50 and 60 years old, from the land he and his brother Zuhair own. Additionally, about 20 other olive trees owned by Citizen Nafez Ayoub were also uprooted.

On March 17, 2025, a group of colonizers established a new colonial outpost near al Auja Spring, north of Jericho. They brought obstruction materials to construct an outpost near the spring, which supplies water to the nearby Bedouin communities.

On March 19, 2025, a group of colonizers set fire to the tents of a Bedouin community in “Wadi al-Matwi area”, which connects the city of Salfit to the town of Bruqin. They attacked the community, burning their tents and damaging their

property. Earlier, they physically assaulted the residents of the tents and sprayed them with pepper spray.

In addition, the colonizers paved a new colonial road leading to the colonial outpost built on the lands of the village of Farkha, southwest of Salfit. They began laying electricity lines and rehabilitating the road leading to the new colonial outpost built on the village lands. They also bulldozed large areas of citizens' lands in “Wadi al-Matwi” area to connect the so-called “Ariel” and “al-Ras” colonies, both built on the lands of Salfit, with the new colonial outpost.

On March 21, 2025, a group of colonizers constructed an iron awning near residents' tents in Ein al-Hilweh, located in the northern Jordan Valley. This action has raised concerns about a potential increase in attacks by settlers against the local residents. The area has a history of such attacks,

which include physical assaults, preventing residents from grazing their livestock, raiding tents at night, and instilling fear within the community.

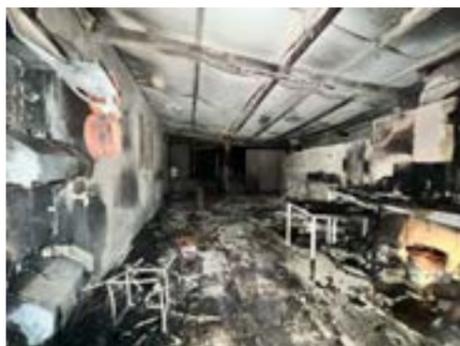

March 22, 2025: a group of colonizers from the so-called “Itamar” colony, built on privately owned Palestinian land, uprooted several olive trees in the village of Rujeib, east of Nablus. The trees belong to the citizen “Shahada Jamil Rawajbeh”.

On March 11, 2025, colonizers attacked the brothers “Ghanim and Muhammad Eid Zawahra” in "Al-Maytah" area of the Jordan Valley, located east of the West Bank. The brothers narrowly escaped death after being brutally assaulted while herding sheep. They were severely beaten on the head, resulting in serious injuries. Ghanim Zawahra suffered a broken hand, along with multiple severe wounds and bruises all over their bodies.

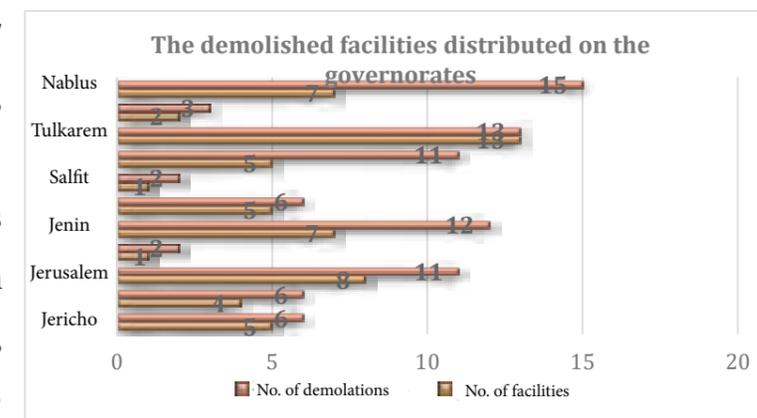

On March 14, 2025, a group of colonizers, protected by the Israeli occupation army, launched a brutal attack on “Khirbet al-Marajim”, located east of Duma, which is southeast of Nablus. They targeted citizens and their properties, and set fire to their property. As a result, three homes were burned down, belonging to Khaled Daoud, Naseem Muslim, and Nayeq Muslim. Additionally, two vehicles owned by Nayef Muslim were also destroyed due to this attack.

Second: Procedures and Practices of the Occupation Authorities against Palestinian Facilities

Demolitions: According to the violations database of the CWRC, and during the reporting period, March 2025, the Israeli occupation authorities carried out 58 demolitions that targeted 87 facilities in the West Bank, including Jerusalem.

Most of these demolitions were concentrated in Tulkarm Governorate, which witnessed 13

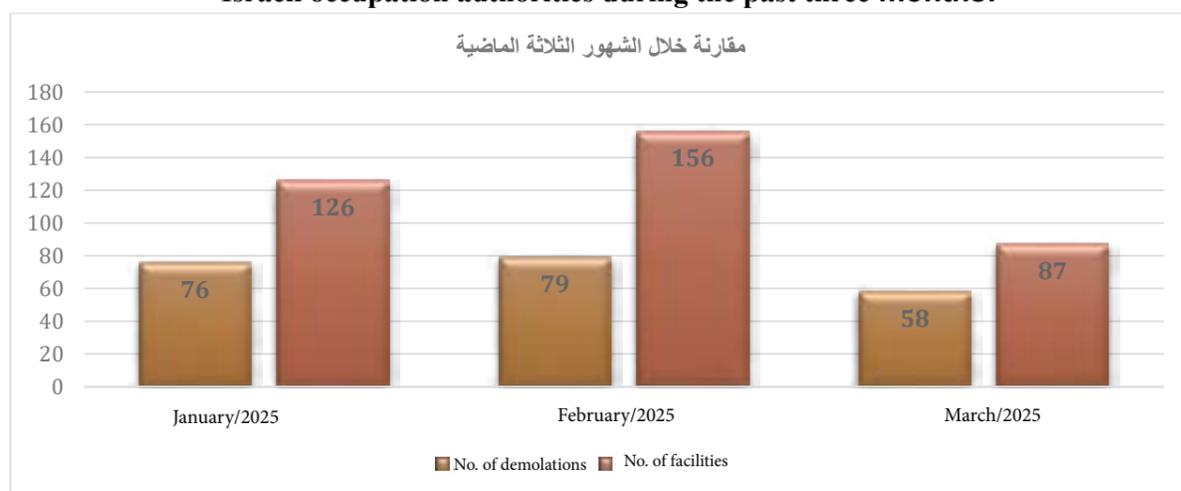

demolitions that resulted in the demolition of 13 facilities followed by Jerusalem Governorate, where 8 demolitions were monitored and resulted in the demolitions of 11 facilities. Meanwhile, 7 demolitions were recorded in Nablus governorate and caused the demolition of 15 facilities, as well as, there were 7 demolitions in Jenin governorate that resulted in the demolition of 12 facilities.

The side graph shows that demolition operations are concentrated in the northern and central areas of West Bank. Because the relationship between demolitions and demolition notifications is inherent (see the notifications section), we notice the concentration (of both demolitions and notifications) in both the northern and central areas of West Bank. These notifications are concentrated in vast areas where the Israeli occupation seeks to evacuate and forcibly depopulate in favor of the settler-colonial project. During the reporting period, these demolitions included: inhabited residences, uninhabited residences, residences under construction, agricultural facilities, mobile homes (caravans), industrial and commercial barracks, and water wells.

Table No. (4): Shows the number of facilities that were demolished, distributed by governorates and the type of facility.

A comparison shows the number of demolitions and demolished facilities carried out by the Israeli occupation authorities during the past three months:

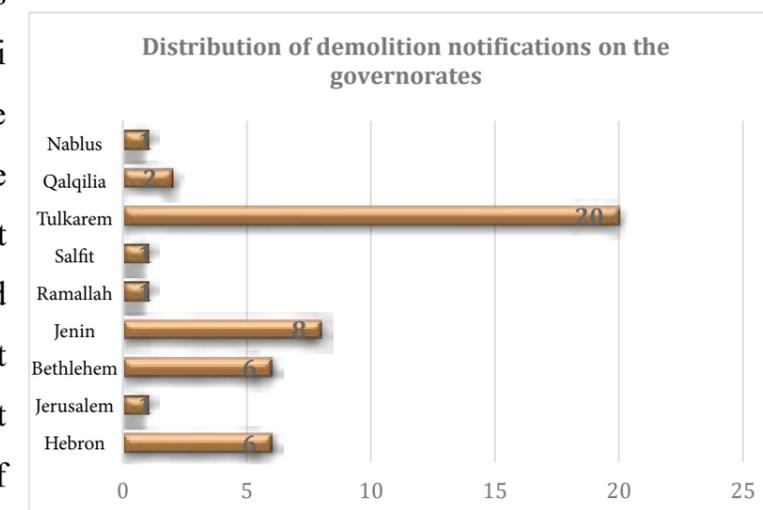

B. Notifications (Demolition, Construction Moratorium, and Evacuation)

during the reporting period, March 2025, Israeli occupation authorities issued 46 notifications, including notifications of demolition, construction moratorium orders

due to lack of permits, and eviction notifications under the pretext of military training. The majority of these notifications were concentrated in Tulkarm Governorate which received 20 notifications, followed by Jenin Governorate which had 8 notifications. Meanwhile, the governorates of Bethlehem and Hebron received 6 notifications for each.

The demolition notifications issued by the Israeli occupation authorities in the West Bank serve as one of the means it utilizes to restrict Palestinians in Area “C” and obstruct their development and urban expansion. In light of the occupation’s control of planning in these areas, they

deny Palestinians their right to prepare master plans. Even when these master plans were submitted, they were rejected, preventing Palestinians from utilizing Area “C”, which constitutes 61% of the West Bank. This area is being kept for the expansion of colonies and as a strategic reserve for future use

Third: Land Expropriation (Land Confiscation)

In March, the occupation state issued two military seizure orders for security and military purposes, targeting 4 dunums of land in the governorates of Qalqilya and Salfit.

First order: The occupation forces seized 2.791 dunums of land from the village of Haris in the Salfit governorate under the pretext of a military and security seizure order, numbered M.D/1/25. This military order aims to establish military posts along the road adjacent to the town of Haris.

Second order: The occupation forces seized 1.203 dunums of land from the village of Azzun in the Qalqilya governorate under the pretext of a military and security seizure order, numbered T/37/25. This military order aims to establish a military tower on privately-owned land in the town.

Fourth: Colonial Expansion Measures (Approved, Deposited) and Bids

First: Master Plans in the West Bank

In March, the planning authorities of the occupation state reviewed 38 master plans for the benefit of West Bank colonies, approving² 13 plans and depositing 15 others³. The plans targeted a total of 2163 dunums of private Palestinian citizens' land.

Analyses of the maps attached to the master plans indicate the occupation state's intention to significantly expand the "Ets Efraim" colony, built on citizens' land in Mash-ha in Salfit Governorate and Sinirya in Qalqilya Governorate. The master plan plans to establish a new colonial neighborhood by constructing 192 new colonial units on an area of 32 dunums, as approved under Master Plan No. 1\6\12

Second: Master Plans and Bids for Colonial Units in Jerusalem

The planning authorities of the occupation state, represented by the District Committee of the Jerusalem Municipality, reviewed a total of 7 master plans aimed at colonial expansion in the colonies established in Jerusalem. They approved 3 plans and deposited 4 others. These plans targeted the construction of 237 housing units, covering a total area of 1244 dunums.

Fifth: Laws and Bills proposed or approved by the Israeli Knesset during March

In this part of the report, we review the most prominent of the laws and bills that were studied in the Occupation's Knesset. Considering the nature of these laws, their hostile and racist nature can be inferred, through which the legislative bodies in the occupation state seek to entrench a system of suppression against Palestinians or to perpetuate the racial segregation and apartheid imposed on them.

An example of this is the bills submitted by members of the far-right Knesset, which at times call for the full imposition of the occupation’s sovereignty over the West Bank, and another bill that seeks to annul the Oslo Accords.

A quick glance at the set of laws currently under discussion reveals the mindset of the occupation and where it aims to go in terms of annexation, control over Palestinian land, and subjugation—openly and in plain sight of the world.

Bill	Discussion date	Reference no	Stage	Justifications for the Law
Two bills to deduct funds from the withheld Palestinian tax revenues in favor of insurance companies over car thefts.	March 19, 2025	ב/ 25/ 5219 ב/ 25/ 5555	Preliminary	The law grants the Israeli government the authority to deduct from the withheld Palestinian tax revenues amounts paid by Israeli insurance companies as compensation for “car thefts,” on the pretext that the “perpetrators” are Palestinians from the occupied West Bank..
A bill aimed at easing and/or lifting existing restrictions on demolition orders of homes belonging to Palestinian resistance fighters.	March 19, 2025	ב/ 25/ 5215	Preliminary	A bill aimed to ease and/or lift existing restrictions on the demolition orders of homes belonging to Palestinian resistance fighters. One of the key provisions of the bill stipulates that if the person is single or lives in part of the house, the entire home should be demolished rather than partially. The law also states that the affected family may appeal to the administrative court instead of the Supreme Court or the central court, as is currently the case,

				without any mention of the right to appeal the court’s decision.
A bill to toughen penalties on Palestinians who enter Israel without permits.	March 19, 2025	ב/ 25/ 5606	Preliminary	According to the wording of the law, the penalty for entering without a permit is four years in prison, with a minimum sentence of one year. If the offense is repeated a second time, the minimum sentence is two years, and for a third offense, the minimum penalty is three years.
A bill that prohibits monitoring and documenting the actions of Israeli soldiers and others in the West Bank and Gaza Strip.	March 17, 2025	ב/ 25/ 5643	Deposited	The bill includes a clear provision prohibiting the documentation of the actions of the occupying army. Anyone who violates this will face a prison sentence of 3 years. If the person hands over the information and documentation they have about the soldiers to a foreign entity, especially a foreign judicial body, the sentence will increase to 10 years in prison. Another section of the law targets centers and organizations, particularly human rights centers. Among the penalties imposed on them are the revocation of their operating license, labeling them as “hostile entities,” and imposing a 50% tax on the donations they receive.

Bill to impose "Israeli sovereignty" over the entire occupied West Bank.	March 17, 2025	ב/ 25/ 5636	Deposited	A bill that imposes what is called "Israeli sovereignty" over the entire occupied West Bank.

Bill to annul the Oslo Agreements and the Wye River Memorandum.	March 17, 2025	ב/ 25/ 5641	Deposited	Bill to annul the Oslo Agreement, all related agreements, and also the Wye River (Hebron) Memorandum.
Bill to toughen penalties on those who transport Palestinians from the West Bank without permits.	March 10, 2025	ב/ 25/ 5613	Deposited	Knesset member Kiti Shatrit, from the Likud bloc, presented a bill to toughen penalties on any driver who transports Palestinians from the occupied West Bank without entry permits to Israel. The minimum penalty for this offense will be a quarter of the penalty specified by law, and the second provision of the bill mandates

				doubling the current penalty before the law was amended.
Bill to prevent the employment of Palestinians from the West Bank in Israel.
